To reserve a course just email or call KT Training. We require your full name, address, contact details and medical registration number. All KT Training courses are CPD accredited and cover the criteria recommended by the Health Education England for foundation and advanced procedure training courses.

KT Training DO NOT currently provide the Level 7 qualification or Diploma in Aesthetic Medicine. This can be completed if you choose so at a later stage. However all material and case studies provided during your KT Training courses can be submitted to assist with achieving this qualification.

Our courses cover the knowledge and provide extensive hands on and supervised practical training to achieve the levels of competence required to complete the level 7 or diploma in aesthetic medicine. If you choose the diploma option.

On completion of the KT Training courses you will receive certification that allows you to source indemnity insurance and start completing case studies and treatments.

Due to demand we will schedule extra dates for some courses. We do occasionally have late cancellations and our policy is to try and fill the place, if a course is FULL we do operate a waitlist for last minute bookings.

Course dates, trainers and prices may be subject to change without prior notification.

TERMS & CONDITIONS
